

Appendix A – Memorandum of Understanding (MoU)

Complete in full. Both parties retain a copy. The lecturer countersigns before work begins.

MEMORANDUM OF UNDERSTANDING	
Between: The Department of Computer Engineering, KNUST (represented by team Xenon)	
And: Quick Start Driving School , located at Ayeduase Gate, Kumasi-Ashanti Region	
Date: July 18,2026	
1. PURPOSE	
This MoU governs the collaboration between the student team named below and the above business (hereafter “ the Client ”) for the purpose of developing a software solution as part of the academic programme COE 454 at KNUST . This is an academic project; no financial transaction is implied.	
2. SCOPE OF WORK	
The student team will gather requirements through structured interviews and observation, design and develop a Minimum Viable Product (MVP) addressing the agreed problem, and demonstrate the MVP to the Client while incorporating initial feedback. The team will not handle financial transactions on behalf of the Client, access systems or data beyond what is explicitly agreed, or commercialize the product.	
3. CLIENT OBLIGATIONS	
The Client agrees to make one or more staff members available for interviews and feedback sessions, provide access to relevant (non-sensitive) operational data as needed, and sign the MVP Acceptance Form upon completion of the demonstration.	
4. CONFIDENTIALITY	
The student team will not disclose any internal information shared by the Client to third parties. Client data will not be uploaded to any AI tool without explicit written consent. All data will be deleted from team devices at the end of the academic semester.	
5. INTELLECTUAL PROPERTY	
The software developed remains the intellectual property of the student team under the Ghana Copyright Act 2005 (Act 690), unless a separate written agreement is made. Any future commercial use of the software requires a new agreement between all parties.	
6. DURATION	
This MoU is valid for the current academic semester only.
